

Privacy Policy

_____ ("We", "Our", or "Us") is committed to protecting your privacy. This Privacy Policy explains how your personal information is collected, used, and disclosed by _____. This Privacy Policy applies to our App _____, and its associated subdomains (collectively, our "Service") alongside our application, _____. By accessing or using our Service, you signify that you have read, understood, and agree to our collection, storage, use and disclosure of your personal information as described in this Privacy Policy and our Terms of Service.

Definitions and Key terms

To help explain things as clearly as possible in this Privacy Policy, every time any of these terms are referenced, are strictly defined asL

Cookie: small amount of data generated by a website and saved by your web browser. It is used to identify your browser, provide analytics, and remember information about you such as your language preference or login information.

Company: when this policy mentions "Company," "We," or "Our," it refers to _____, _____ that is responsible for your information under this Privacy Policy.

Country: where _____ or the owners/founders of _____ are based, in this case is _____

Customer: refers to the company, organization or person that signs up to use the _____ Service to manage the relationships with your consumers or service users.

Device: any internet connected device such as a phone tablet, computer or any other device that can be used to visit _____ and use that service.

IP addressL Every device connected to the Internet is assigned a number known as an Internet protocol (IP) address. These numbers are usually assigned in geographic blocks. An IP address can often be used to identify the location from which a device is connecting to the Internet.

Personnel: refers to those individuals who are employed by ___ or are under contract to perform a service on behalf of one of the parties.

Personal Data: any information that directly, indirectly, or in connection with other information - including a personal identification number - allows for the identification or identifiability of a natural person.

Service: refers to the service provided by _____ as described by the relative terms (if available) and on this platform.

Third-party service: refers to advertisers, contest sponsors, promotional and marketing partners, and others who provide our content or whose products or services we think may interest you.

Website: _____'s site, which can be accessed via this URL: _____

You: a person or entity that is registered with ___ to use the Services.

Information automatically collected

There is some information like your Internet fProtocol (IP) address and/or browser and device characteristics - is collected automatically when you visit our platform. This information may be used to connect your computer to the internet. Other information collected automatically could be a login, e-mail address, password. Computer and connection information such as browser plug-in types and versions and timezone setting, operating systems and platforms, purchase history, (we sometimes aggregate with similar information from other Users), the full Uniform Resource Locator (URL) clickstream to, through and from our Website that may include date and time; cookie number; parts of the site you viewed or searched for; and the phone number you used to call our Customer Services. We may also use browser data such as cookies, Flash cookies (also known as Flash Local Shared Objects) or similar data on certain parts of our Website for fraud prevention and other purposes. During your visits, we may use software tools such as JavaScript to measure and collect session information including page response times, download errors, length of visits to certain pages, page interaction information (such as scrolling, clicks, and mouse-overs), and methods used to browse away from the page. We may also collect technical information to help us identify your device for fraud prevention and diagnostic purposes. We automatically collect certain information when you visit, use or navigate the platform. This information does not reveal you specific identity (like your name or contact information) but may include device and usage information , such as you IP address, browser and device characteristics, operating system, language preferences, referring UROs, device name, country, location, information about who and when you use our and other technical information. This information is primarily needed to maintain the security and operation of your platform, and for our internal analytics and reporting purposes.

What Information Do We Collect?

We collect information from you when you visit our _____, register on our app.

Name/ Username

Phone number

Age

Gender

Password

How Do We Use The Information We Collect?

Any of the information we collect from you may be used in one of the following ways:

To personalize your experience (Your information helps us to better respond to your individual needs)

To improve our _____(we continually strive to improve our _____ offerings based on the information and feedback we receive from you)

To improve customer service (your information helps us to more effectively respond to your customer service requests and support needs)

When does _ use end user information from third parties?

_will collect End User Data necessary to provide the _ services to our customers

When does ____ use customer information from third parties?

We receive some information from the third parties when you contact us. For example, when you submit your phone number to us to show interest in becoming a ____customer, we receive information from a third party that provides automated fraud detection services to _____. We also occasionally collect information that is made publicly available on social media websites. You can control how much of your information social media websites make public by visiting these websites and changing your privacy settings.

Do we share the information we collect with third parties?

We may share the information that we collect, both personal and non-personal, with third parties such as advertisers and others who provide our content or whose products or services we think may interest you. We may also share it with our current and future affiliated companies and business partners, and if we are involved in a merger, asset sale or other business reorganization, we may also share or transfer your personal and non-personal information to our successors-in-interest.

We may engage trusted third party service providers to perform functions and provide services to us, such as hosting and maintaining our servers and the _____, database storage and management , email management and storage marketing. We will likely share your personal information, and possibly some non-personal information, with these third parties to enable them to perform these services for us and for you.

We may share portions of our log file data, including IP addresses, for analytics purposes with third parties such as web analytic partners, application developers, and ad networks. If your IP address is shared, it may be used to estimate general location and other technographics such as connection speed, whether you have visited the _ in a shared location, and type of the device used to visit the _____. They may aggregate information about our advertising and what you see on the ____ and then provide auditing, research and reporting for us and our advertisers.

We may also disclose personal and non-personal information about you to government or law enforcement officials or private parties as we, in our sole discretion, believe necessary or appropriate in order to respond to claims, legal process (including subpoenas), to protect our rights and interests or those of a third party, the safety of the public or any person, to prevent or stop any illegal, unethical, or legally actionable activity, or to otherwise comply with the applicable court orders, laws, rules and regulations.

Where and when is information collected from customers and end users?
Lugh will collect personal information that you submit to us. We may also receive personal information about you from third parties as described above.

How Long Do We Keep Your Information?

We keep your information only so long as we need it to provide Lugh to you and fulfil the purposes described in this policy. This is also the case for anyone that we share your information with and who carries out services on our behalf. When we no longer need to use your information and there is not need for us to keep it to comply with our legal or regulatory obligations, we'll either remove it from our systems or depersonalize it so that we can't identify you.

How Do We Protect Your Information?

We implement a variety of security measures to maintain the safety of our personal information when you enter, submit or access your personal information. We offer the use of a secure server. All supplied sensitive information is transmitted via Secure Socket Layer (SSL) technology and then encrypted.

Why is GDPR important

GDPR adds some new requirements regarding how companies should protect individuals' personal data that they collect and process. It also raises the stakes for compliance by increasing enforcement and imposing greater fines for breach. Beyond these facts it's simply the right thing to do. At Help Scout we strongly believe that your data privacy is very important and we already have solid security and privacy practices in place that go beyond the requirements of this new regulation.

Individual Data Subject's Rights - Data Access, Portability and Deletion

We are committed to helping our customers meet the data subject rights requirements GDPR. _processes or stores all personal data in fully vetted, DPR compliant vendors. We do store all personal data for up to 6 years unless your account is deleted. In which case, we dispose of all data in accordance with our Terms of Service and Privacy Policy but we will not hold it longer than 60 days.

We are aware that if you are working with EU customers, you need to be able to provide them with the ability to access, update, retrieve and remove personal data. We got you! We've been set up as a self service from the start and have always given you access to your data and your customers data. Our customer support team is here for you to answer any questions you might have about working with the API.

If you make a request, we have one month to respond to you. If you would like to exercise any of these rights, please contact us.

Is the information collected through the Lugh Service secure?

We take precautions to protect the security of your information. We have physical, electronic and managerial procedures to help safeguard, prevent unauthorized access, maintain data security, and correctly use your information. However, neither people nor security systems are foolproof including encryption systems. In addition, people can commit intentional crimes, make mistakes or fail to follow policies. Therefore, while we use reasonable efforts to protect your personal information, we cannot guarantee its absolute security. If applicable law imposes any non-disclaimable duty to protect your personal information. You agree that intentional misconduct will be the standard used to measure our compliance with that duty.

Can I update or correct my information?

The rights you have to request updates or corrections to the information Lugh collectss depend on you relationship with Lugh. Personnel may update or correct their information as detailed in our internal company employment policies.

Customers have the right to request the restriction of certain uses and disclosures of personally identifiable information as follows. You can contact us in order to (1) update or correct your personally identifiable information, (2) change your preferences with respect to the use of your personally identifiable information, and (3) delete the personally identifiable information maintained about you on our systems (subject to the following paragraph), by canceling your account. Such updates, corrections, changes and deletions will have no effect on other information that we maintain, or information that we have provided to third parties in accordance with the privacy policy prior to such update, correction, change or deletion. To protect privacy and security, we may take reasonable steps (such as requesting a unique password) to verify your identity before granting you profile access or making corrections. You are responsible for maintaining the secrecy of your unique password and account information at all times.

You should be aware that it is not technologically possible to remove each and every record of the information you have provided to us from our system. The need to back up our systems to protect information from inadvertent loss means that a copy of your information may exist in a non-erasable form that will be difficult or impossible for us to locate. Promptly after receiving your request, all personal information stored in databases we actively use, and other readily searchable media will be updated, corrected, changed or deleted, as appropriate, as soon as and to the extent reasonably and technically practicable.

If you are an end user and wish to update, delete, or receive any information we have about you, you may do so by contacting the organization of which you are a customer.

Google Maps APIS

Google Maps API is a robust tool that can be used to create a custom map, a searchable map, check-in functions, display live data synchroning with location, plan routes, or create a mashup just to name a few.

Google Maps API may collect information from You and from Your Device for security purposes.

Google Maps API collects information that is held in accordance with its Privacy Policy.

Cookies

We use Cookies to enhance the performance and functionality of our _ but are non-essential to their use. However, without these cookies, certain functionality like videos may become unavailable or you would be required to enter your login details every time you visit Lugh as we would not be able to remember that you had logged in previously.

Local Storage

Local Storage provides apps with methods and protocols for storing client-side data. Web storage supports persistent data storage, similar to cookies but with a greatly enhanced capacity and no information stored in the HTTP request header.

Sessions

Lugh uses "Sessions" to identify the areas of our App you have visited. A Session is a small piece of data stored on your computer or mobile device by your web browser.

We do not sell the Personal Information of our users.

For more information about these rights, please contact us.
